Balls of Fire: A Science of Life and Death (Paperback)

By Judy Kay King

Envision Editions, Ltd., United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Spanning 5,000 years of history from ancient Egypt to our technoprogressive 21st century, the science reviewed in Balls of Fire builds on The Isis Thesis (2004) and 12 journal articles (2005-2013). The Isis Thesis is a semiotic study of ancient Egyptian literature, artwork, ritual, and architecture, showing that ancient Egyptian deities are signs for human and microbial genes and proteins evolving into a hybrid quantum species. The deities activities describe the ancient glycolysis gene expression network in our cells and mirror the lifestyles of a complex bacterial virus that uses this ancient developmental pathway. Surprisingly, other historical religious deities mirror the activities of Egyptian deities, so religion has also preserved an evolutionary science for survival of human DNA in a quantum environment. Balls of Fire presents evidence that our semiotic system is based on underlying physical and chemical principles inherited from our microbial ancestors, so our microbial DNA is ordering our society space. Examining human history through the dual lens of contemporary science and human behavior, the study shows that human beings have the potential to evolve...
