Reviews

It is an awesome ebook which i actually have at any time read through. It usually fails to charge excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.

ARCHAEOLOGY IN WASHINGTON

University of Washington Press. Paperback. Book Condition: New. Paperback. 168 pages. Dimensions: 10.9in. x 8.4in. x 0.5in. Archaeology--along with Native American traditions and memories--holds a key to understanding early chapters of the human story in Washington. This all-new book draws together and brings up to date much of what has been learned about the states prehistory and the environments early people experienced. It presents a sample of sites representing Washingtons geographic regions and touches on historical archaeology, including excavations at fur-trade forts and the Whitman mission, and Cathlapotle, a Columbia River village visited by Lewis and Clark. The authors portray the discovery of a mastodon butchered by hunters on the Olympic Peninsula 14, 000 years ago; the nearly 13, 000-year-old Clovis points in an East Wenatchee apple orchard; an 11, 200-year-old Marmes Man in the Palouse; and the controversial Kennewick Man, more than 9, 000 years old, eroded out of the riverbank at Tri-Cities. They discuss a 5, 000-year-old camas earth oven in the Pend Oreille country; 5, 000 years of human habitation at Seattles Metro sewage treatment site; the recovery at Hoko River near Neah Bay of a 3, 200-year-old fishnet made of split spruce boughs and tiny stone knife blades still hafted in cedar handles; and the world-renowned coastal excavations at Ozette, where mudslides repeatedly swept into houses, burying and preserving them. The tale ranges from the earliest bands of hunters, fishers, and gatherers to the complex social organizations and highly developed technologies of native peoples at the time of their disruption by the arrival of Euro-American newcomers. Also included is a summary of the changing role, techniques, and perspectives of archaeology itself, from the surveys and salvage excavation barely ahead of dam construction on the Snake and among Columbia rivers to todays collaboration between archaeologists, Native Americans, private...
