BRAND NEW, Movie Movements: Films That Changed the World of Cinema, James Clarke, Movie Movements: Films That Changed the World of Cinema is a one-stop guide to the major movements that have shaped our sense of what cinema is and can be. It introduces the reader to definitions of the founding concepts in Film Studies such as authorship and genre, technological impacts and the rise of digital cinema, social influences and notions of the avant-garde, and cinema's emergence as a major art form that reflects and shapes the world. It explores, in concise and clear sections, how major works from the classic French realist *La Règle de Jeu* to the dazzling animation of Norman McLaren and the memorial documentary of Shoah, were conceived, developed and produced, and eventually received by the public, critics and film history.
