ORGANIZATIONAL SCIENCE MEETS LAW AND ECONOMICS (PAPERBACK)

Boom Juridische Uitgevers, Netherlands, 2011. Paperback. Book Condition: New. 240 x 165 mm. Language: English . Brand New Book. Law and Economics, as well as Organizational Science, are well-established disciplines, which are concerned with the explanation of organizational behavior. However, both disciplines do not collaborate in order to get more scientific insight in the functioning of organizations. While Law and Economics is mainly applied microeconomics and follows the rational actor model, Organizational Science is fragmented into diverse scientific approaches, thereby relaxing the assumption of rational behavior. In this dissertation, the differences between both disciplines are discussed and the possibilities for a productive collaboration are evaluated. In addition, the study includes two applications which demonstrate the added value of a collaboration of the two disciplines: the regulation of energy firms and organizational tort liability. Dissertatio.
